Career Objective

Looking for a challenging position of embedded developer in a technological environment where I can put my knowledge and skills into practice and create a winning team through hard work and dedication

.

Education

● MSc of Electrical, Computer and Systems Engineering at Ain Shams University (Present)
●BSc Communication and Electronics Department Factuality of Engineering Thebes Academy [2014]
● Graduation Project: Health Monitoring
● Graduation Project Grade: Excellent

Experience and Proficiency

● Proficiency of C/C++,Embedded C programming
● Object Oriented Programming
● Good knowledge of Software processes such as V-Model and Agile
● Assembly programming
● Solid understanding of Microcontroller Architecture and interfacing
●Strong knowledge of 32 bits Microcontrollers based on ARM Cortex M3/M4
● Strong knowledge of ARM Microprocessor Architecture and Peripherals
● Familiarity with communication protocols UART/SPI/I²C/I^2S/Ethernet/CAN
● Developing Communication Applications using Socket Programming in C/C++
● Full understanding of TCP/IP Stack protocol
● Experience with Emulators/Simulators
● Testing for Embedded Systems
● Good knowledge of Real Time Algorithms and Multi-Threading programming
● Digital Signal Processing for 1-D and 2-D Signals
● Good use of POSIX Library under Linux
● Kernel Programming for a Linux Distribution
● Familiarity with Cmake Building Tools and Makefiles
● Design For Test writing test-benches with VHDL and simulating with ModelSim
● Good using of MATLAB/Simulink and Labview

Algorithms

Data Structure Algorithms Sorting, Searching and Linked Lists
Control Algorithms such as PID and Fuzzy logic controller
Digital Image Processing filters in both Spatial and Frequency domains
Machine Learning and Optimization Algorithms as Neural Networks and Genetic Algorithms

Tools

● IDE's:Qt-Creator, Eclipse,CooCox for ARM (Windows), Keil (Windows), Code Composer Studio ,IAR Arm workbench ● Platform: Linux, Windows
● Version control tools such as SVN and Git

Projects

- Health Monitoring –Measuring Heart rate via Camera- as a Graduation Project
- Face Recognition based OpenCV
- Flight Controller for Multi-copters
- Developing a Library for STM32F1xx Series
- Design and Implementation of Client Embedded system connects to a Server with LWIP
- Coverage hole calculation of Wireless Sensor Network using NS2 C++ and TCL
- Localization Using ESP32 and iBeacons
- Live Stock Monitoring based ESP and Embedded Linux IoT
- Fleet Monitoring of 4 Wireless sensor nodes that communicate with each other and Cloud
- High Quality Robots that include Maxon Motors ,Digital cameras and Sensors (IMU..etc)
- Design and Implementation of CubeSAT Communication Subsystem Software under supervision of **Prof.Dr Abdelhalim Zekry** [Present]

Publications

Industrial Internet of Things Solution for Real-Time Monitoring of the Additive Manufacturing Process
https://link.springer.com/chapter/10.1007/978-3-319-99981-4_33

Work Experience

- Embedded Systems Engineer and Instructor at Arab Tech startup company since [Feb 2015 To March 2016]
- Embedded systems Engineer at Artronic Company since [May 2016] to [Feb 2017]
- Embedded systems Engineer at EL2LABS Company since [Oct 2017]
- Currently Senior Embedded systems Engineer at EgyRobo Company

Training and Courses

- Microcontroller course AVR by **Dr.AllamShehata**
- Embedded Systems Diploma at **EmbeddedFab**
- Embedded Systems course: "Shape the world" Online **edX** Open course ware site
- CE606 Software Engineering at **"MSc- ASU"**
- CE620 Advanced Computer Architecture at **"MSc- ASU"**

Personal Qualities

- Leadership experience gained from Graduation Project management and Leading of Dream Of Change Club at Thebes Academy
- Having a flexible approach and a Can Do attitude
- Highly motivated and organized
- Able to explain technical data to non-technical colleagues
- Ability to ensured projects run to schedule and budget
- Able to Travel for short and long periods

Languages

Arabic: Mother Tongue **English:** Excellent **Deutsche:** A1 (Beginner)

Personal Information

Name: Mohamed Saied Mohamed Abdel Rahman
Birth date: 2/08/1992 **Address:**6 Al El beet –Maadi, Cairo
Military Status: Postponed **Tel:** 02-25266517 **Mobile:**02-01111159633
Email: Mohamd.Abdelrahman818@gmail.com
